PROFESSIONAL SUMMARY

Results-driven Software Engineering graduate with practical experience in full-stack web development. Adept at building responsive user interfaces, developing robust back-end logic, and delivering user-focused digital solutions.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER – ASPIRING TECHNOLOGIES CO. LTD, JEDDAH

March 2024 – January 2025

- Designed responsive website interfaces using Figma, applying user-centric design principles.
- Developed ATCL's official website from scratch, focusing on clean, functional code.
- Integrated interactive UI elements and animations to enhance user engagement.
- Collaborated with clients to gather requirements & translate into practical design solutions.
- Ensured cross-browser and cross-device compatibility for optimal user experience.
- Performed thorough testing and debugging to deliver high-performance web solutions.

WORDPRESS DEVELOPER – KORASPOND - 360° DIGITAL MARKETING AGENCY, JEDDAH

July 2023 – February 2024

- Developed customized WordPress themes from scratch to meet client specifications.
- Built and maintained websites for brands like Mitsubishi Molars and ISDB.
- Integrated custom post types, widgets, and plugins to extend site functionality.
- Converted design mockups into fully responsive WordPress layouts.
- Enhanced website speed and performance by optimizing assets and implementing caching techniques.
- Ensured websites were fully responsive, accessible, and user-friendly across all devices.
- Collaborated with designers and developers to deliver visually engaging and functional web experiences.

IT ANALYST – SAQIB HOSPITAL, GUJRAT

Sep 2022 – January 2023

- Provided user account management and technical support for hospital staff across departments.
- Delivered HIS and RIS training to receptionists, physicians, lab technicians and pharmacists.
- Resolved day-to-day IT issues related to user access, workflow disruptions, and system functionality.
- Monitored and managed CCTV systems to ensure operational security.

SKILLS

Web Development:

HTML5, CSS3, Bootstrap, JavaScript, PHP, MySQL, WordPress (Custom Theme & Plugin Handling)

Front-End Technologies:

Responsive UI Design, Cross-Browser Compatibility, Mobile-First Design

Back-End Development:

Server-Side Scripting with PHP, Basic API Integration, MySQL Database Management

CMS Platforms:

WordPress Development & Maintenance

Data Analysis:

Python (Pandas, NumPy), Power BI (Dashboard, Data Cleaning, Visualization & Transformation)

ERP Platforms:

Odoo (Basic Module Configuration, Workflow Setup, UI Customization)

Tools & Technologies:

VS Code, Git/GitHub, XAMPP, Power BI Desktop

EDUCATION

Bachelor of Science in Software Engineering (University of Lahore)

Intermediate in Pre-Engineering (Pakistan International School Jeddah)

CERTIFICATIONS

Web Development (IT Hub)

Android App Development (Echo-Soft Solutions)

VISA & WORK AUTHORIZATION

Iqama (Transferable)

Driving License (Valid Saudi License)
